

# TOY SAFETY CERTIFICATION PROGRAM<sup>SM</sup> (TSCP<sup>SM</sup>) SEMINAR

by the  
**U.S. Toy Industry Association (TIA) and  
Specialized Technology Resources Ltd.**

## Seminar Highlights

Customers are increasing the demand for safe and quality products from suppliers. This is especially true for toymakers as safety and quality remain among the most critical issues facing the industry today. Quality issues over the last few years have brought about a higher scrutiny from governments around the world to assure that the products entering their markets are safe. The U.S. Toy Industry Association (TIA) has helped develop an industry-sponsored program to assure that toys entering the U.S. market are safe and that they meet the requirements of a new federal law governing products for children.

STR is proud to join with TIA to hold a seminar to introduce the “Toy Safety Certification Program<sup>SM</sup> (TSCP<sup>SM</sup>)” to our valuable clients. The aim is to increase the awareness and knowledge of requirements of the TSCP. In addition, the seminar is going to explore the latest developments in a wide range of testing, quality control technologies and compliance for all industries.

Topics
<ul style="list-style-type: none"><li>• Introduction to TSCP</li><li>• Development of TSCP</li><li>• Impact on manufacturers &amp; importers</li><li>• Updated information about the CPSIA</li></ul>

### Speakers :

**CHUCK ROGERS** is TIA Senior Technical Director. Beginning with the first meeting in August 2007 of various stakeholders, convened by the TIA and the American National Standards Institute. He has played a key role in the technical working groups and technical steering committee which developed the fundamental principles of the program now being implemented. He has over 13 years experience in consumer product safety and quality assurance.

**MICHAEL T. PERKINS** is TIA Technical Outreach Director. He is charged with implementing an outreach, education and training plan that will introduce factory auditors, toy testers, and companies and retailers of all sizes to the TSCP. He has nearly 30 years of experience in both the toy and hobby and craft businesses; he also has a strong background in toy development, production and testing systems in both the United States and China.

**CHARLES NG** is Technical Director in the Chemical Department of STR (H.K.). He is a specialist in Toys Chemical testing with over 10 years of experience. With professional and comprehensive chemical knowledge in toys testing, he has taken part in the technical alignment in STR laboratories and supported the development of chemical testing with worldwide clients.
